

Lotion Facts Page

Our Beeswax Lotion Bars (a lotion in a bar) and Lip Balm are made from all natural ingredients: Beeswax and extra virgin olive oil. Beeswax has antibacterial, antifungal, and anti-inflammatory properties to help heal dry skin, cuts, burns, rashes and chapped lips. Through skin absorption, beeswax has been known to reduce symptoms of aging, allergies, hay fever and arthritis. The extra virgin olive oil is a gentle moisturizer for the skin. Most other skin lotions use mineral oil and petroleum products that will actually pull moisture out of the skin. Our natural lotion bars and cream have propolis in the beeswax which will heal the skin and also provide a protective barrier that will lock in moisture without the need for repetitive applications. We use a generous amount of pure Ohio beeswax in our Lotion Bars to give you the most healing benefit.

To apply, simply rub the bee balm lotion bar onto the skin and the warmth of your body will melt the bar providing the protection needed.

Major advantages of Bee Balm Lotion Bars: They do not spill or dry out, and are great for travel, even on airplanes.

Ingredients: Extra virgin olive oil and pure beeswax.

Our Bee Balm Face, Hand and Body Creams are also made from all natural ingredients: Beeswax and extra virgin olive oil. They provide the same healing benefits as our lotion bars. The lotion balms have more extra virgin olive oil and less beeswax to make them creamier allowing you to use them on the face, if desired, or on sensitive or frail skin. We use a generous amount of pure beeswax in our lotion balms to give you the most healing benefit possible in a cream.

Ingredients: cold pressed extra virgin olea europaea (olive) oil, pure Ohio beeswax, purified aqua (water), and sodium borate (a natural stabilizer).

Calendula Pomegranate Cream:

Calendula tincture has helped ease pain and itching for centuries. Calendula was chosen 2008 Herb of the Year for its skin healing benefits. Pomegranate has anti-oxidant properties which are also good for the skin. Naturally therapeutic Beeswax, Cold-Pressed Extra Virgin Olive Oil, Pomegranate Seed Oil, Jojoba Oil, and Lemon Essential Oil help promote healthy skin. Calendula Pomegranate Cream helps to relieve and soothe the itch and pain caused by sunburn, eczema, psoriasis, minor cuts, scrapes, poison ivy, and poison oak, chapped, cracked and irritated skin. Naturally therapeutic, it is readily absorbed by the skin. Ordering the large 8 oz. size gives you an extra 2 oz. free.

How to use: For best results, apply lotion every morning and evening to soothe and soften sensitive skin.

Ingredients: cold pressed extra virgin olea europaea (olive) oil, pure Ohio beeswax, purified aqua (water), calendula officinalis (calendula), punica granatum (pomegranate) seed oil, sodium borate (natural stabilizer)

Sizes: Small = 2 oz. Medium = 4 oz. Large = 8 oz.
